NU-COAT REACH COMPLIANCE

Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into European law following 18th December 2006 under (EC) No 1907/2006.

Manufacturing organisations such as NU-COAT have a responsibility to manage the risks that chemicals pose to health and the environment, with REACH encompassing most commonly used substances in everyday life.

As with all responsible manufacturers, we work in close collaboration with our supply partner's in maintaining and achieving current and future REACH compliance.

If a substance of very high concern (SVHC) in accordance to REACH legislation (as per 16th January 2020 revision) is or becomes present above a concentration of 0.1% (w/w) within any NU-COAT material, we will inform the European Chemicals Agency (ECHA) and also any customers who have or intend to use the product concerned.

Where possible, we will continually work with our supply partners to replace any chemical listed as being a substance of very high concern whilst maintaining the performance of our products.

For any additional questions related to NU-COAT products in regards to REACH, please contact your NU-COAT representative.

Additional information regarding REACH legislation can be found at your relevant Government and European Chemicals Agency websites.

DISCLAIMER - All NU-COAT statements, technical information and recommendations are based on tests and wide experience believed to be reliable but do not constitute a guarantee or warranty.

NU-COAT products are sold on the understanding the purchaser has independently determined the suitability of our products for its application.

All NU-COAT products are sold subject to our general terms and conditions of sale. All rights reserved. This document's content, along with all NU-COAT product names and codes are owned by NU-COAT Limited. All other brands and product names detailed are trademarks of their owners.

This publication must not be used, copied or reproduced in whole or in part for any purposes other than marketing by NU-COAT Limited.
